VPN intalli juhend Android seadmel

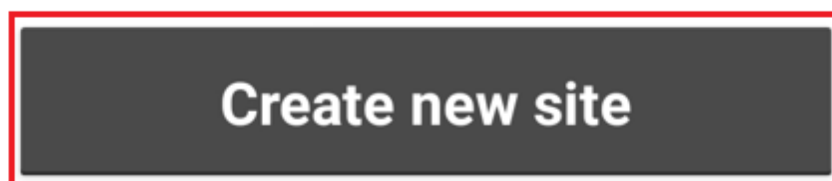

1. Ava „Google Play“ , otsi sealt kaudu ülesse rakendus „Check Point Capsule“ ja installi rakendus.

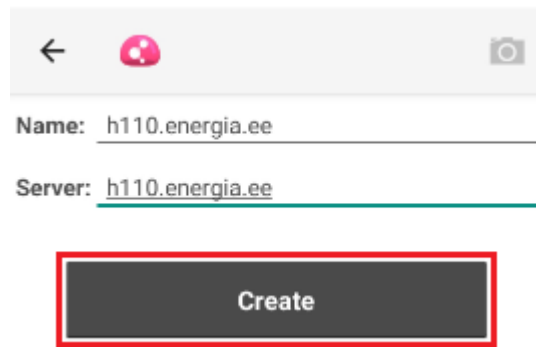

2. Rakenduse esmasel avamisel tuleb seadistada Eesti Energia site.

No sites defined. Please create a site.

3. Nii Name, kui ka Server reale kirjuta „h110.energia.ee“ ja vajuta Create.

←  

Name: h110.energia.ee

Server: h110.energia.ee

Create

4. Peale site'i loomist küsib Check Point kas usaldada antud serverit. Vali Trust.

Do you trust this server?

Trust this server only if you can verify the following details with your IT helpdesk:

Server certificate common name:

h110.energia.ee

Server certificate fingerprint:

MAW MAGI MEEK FATE FILE TUNG DRUG OW
TEAM LIKE DRUB AIM

Cancel

Trust

5. Kui Site on loodud, on võimalik VPNi sisse logida oma AD kontoga.

Username: Eesnimi.Perenimi

Connecting to:

h110.energia.ee

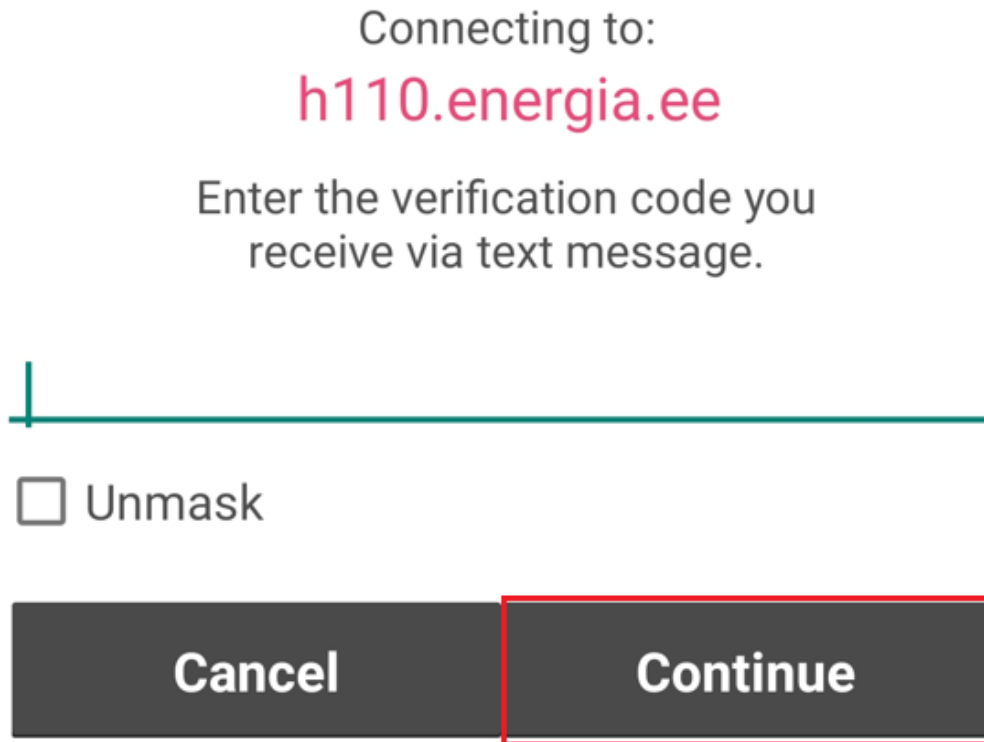

Additional authentication
required, please provide
password to authenticate

eesnimi.perenimi

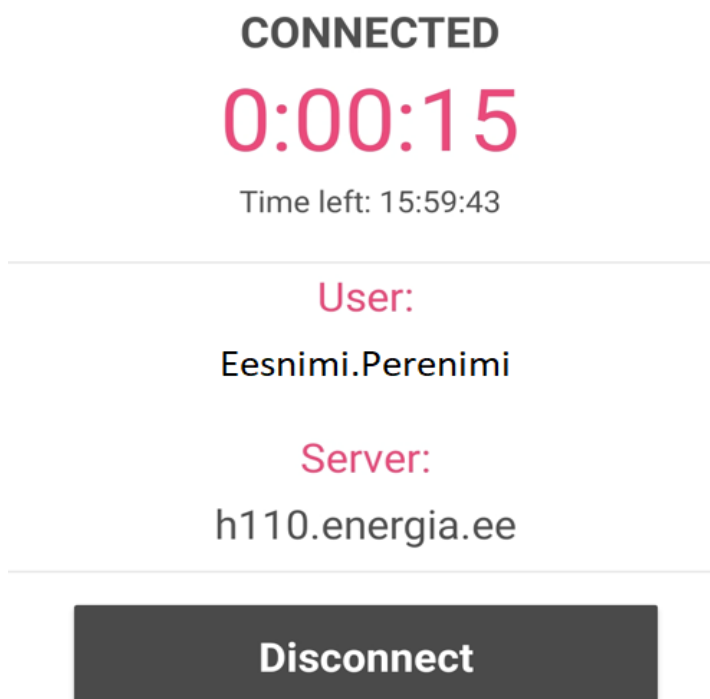

.....

Connect

6. Järgmiseks saadab CheckPoint sinu numbrile kontrollkoodi, mis tuleb sisestada. Peale koodi sisestamis vali „Continue“.

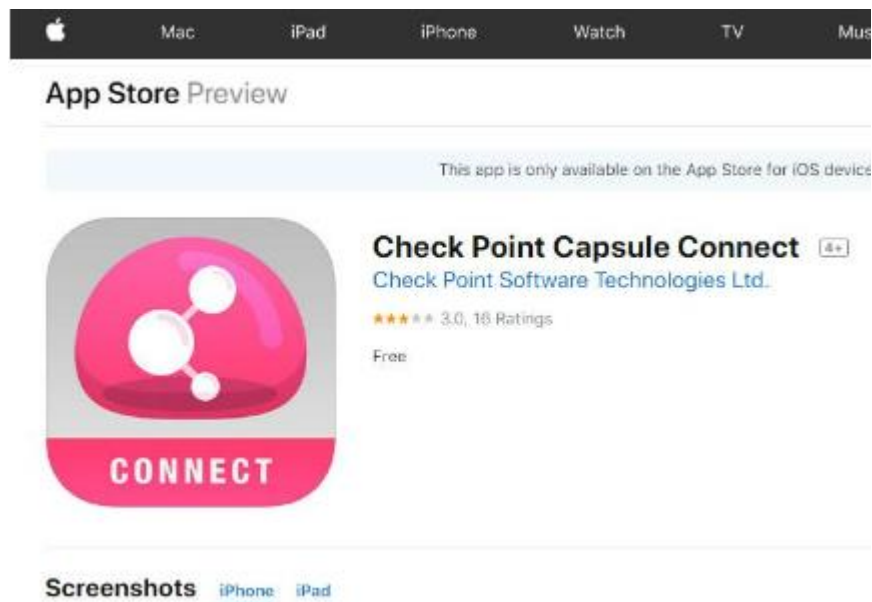

7. Kui ühendus on edukalt loodud peaks ekraanil kuvama ühenduselt selliselt:

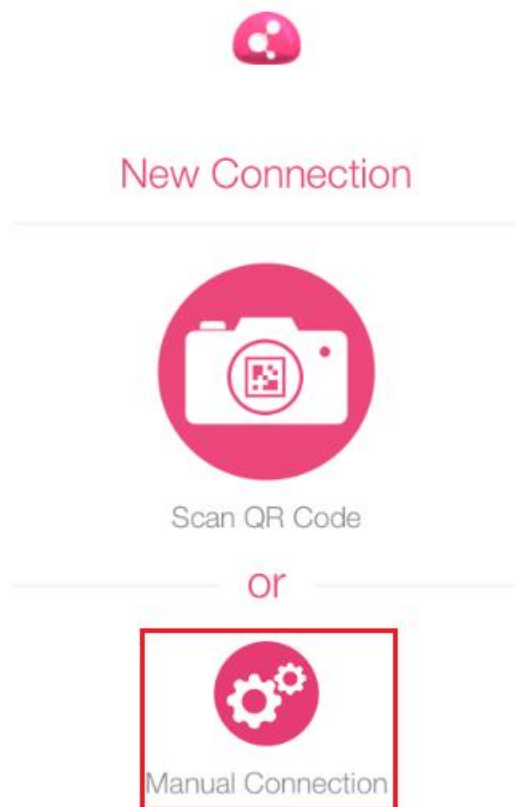

Kui oled jõudnud nii kaugele on VPN ühendus Android seadmes edukalt tehtud.

VPN intalli juhend Apple IOs seadmel

1. Tõmba alla Apple Store'ist „Check Point Capsule Connect“ rakendus.

2. Rakenduse esmasel käivitamisel tuleb ühendus seadistada, selleks vali „Manual Connection“

3. Ühenduse sedastamisel tuleb mõlemad read täita järgmiselt: h110.energia.ee“

New Connection About

Your Network Capsule Cloud

Manual Connection

h110.energia.ee

h110.energia.ee

Create

If this information is not available to you please contact your system administrator

4. Peale ühenduse loomist võib IOs anda teated, sealt tuleb valida „Allow“ ja järgmisel teatel „Yes“.

"Capsule" Would Like to Add VPN Configurations
All network activity on this iPhone may be filtered or monitored when using VPN.

Allow Don't Allow

Enable VPN
Check Point Capsule Connect enables VPN functionality in your device. Would you like to allow this application to enable it?

Don't allow Yes

5. Nüüd saab VPN'ga ära ühendada, selleks logi sisse AD kontoga ehk username on eesnimi.perenimi ja lisaks ka parool, peale nende sisestamisi saadetakse sinu telefonile SMS kinnituskoodiga, mis tuleb samuti sisestada.

6. Kui ühendus on edukalt loodud peaks ekraanil kuvama ühendust selliselt:

CONNECTED
0:00:15

Time left: 15:59:43

User:

Eesnimi.Perenimi

Server:

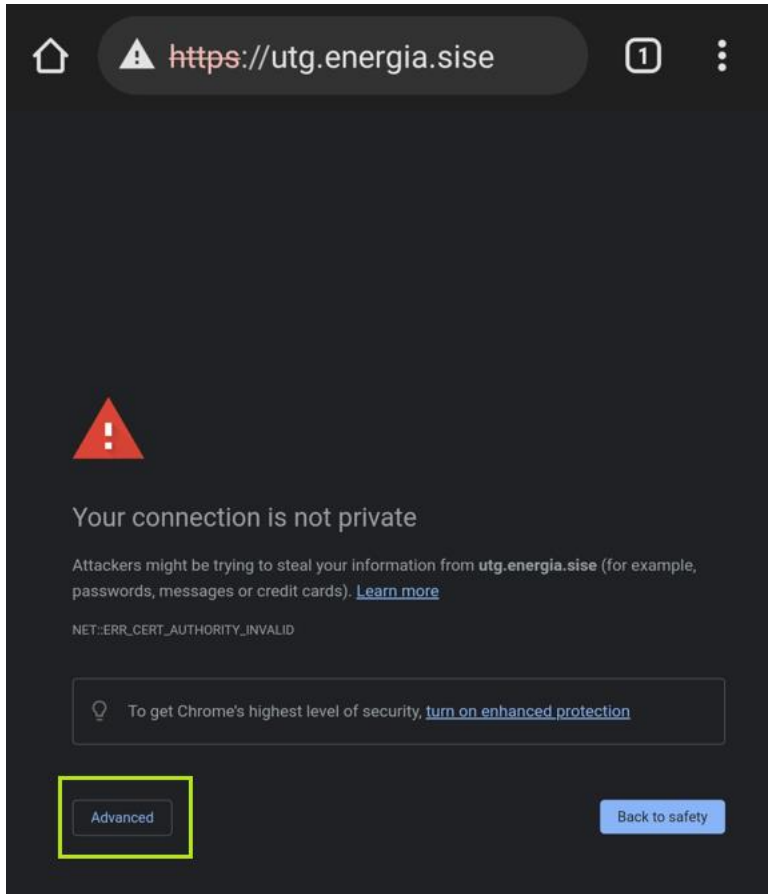

h110.energia.ee

Disconnect

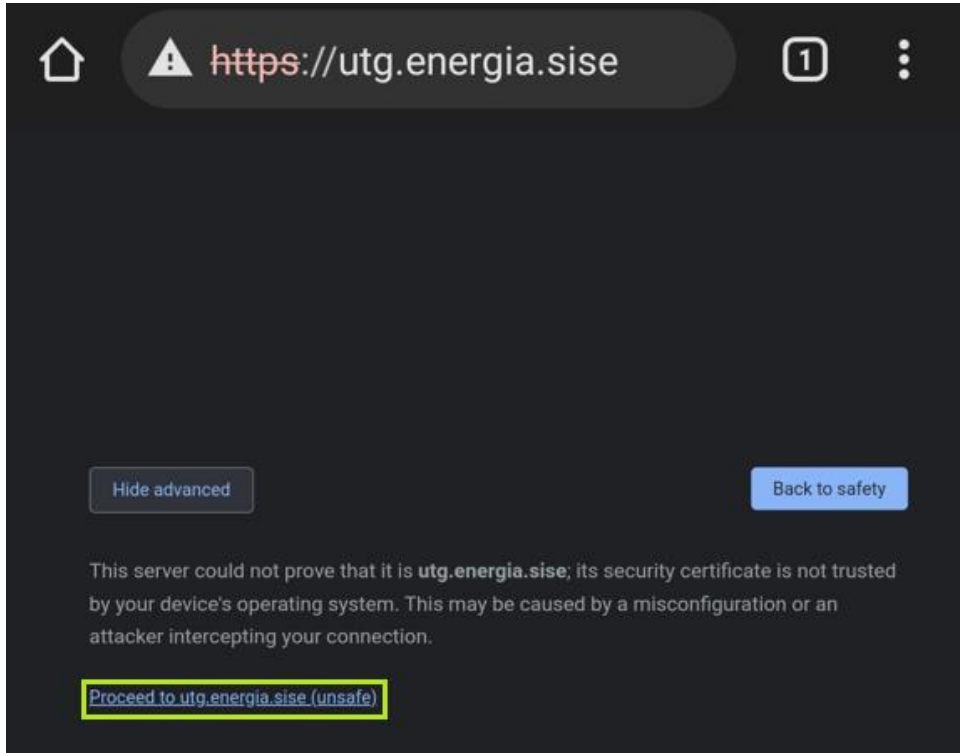

Kui oled jõudnud nii kaugele on VPN ühendus IOs seadmes edukalt tehtud.

UTG kasutamine

1. Alustuseks tuleb avada brauser ja minna lehele: <https://utg.energia.sise>
2. Lehele minnes kuvab brauser sulle veateate, vali „Advanced“ (Pildil märgitud rohelise ruuduga)

3. Vajuta „Proceed to utg.energia.sise (Unsafe)“

4. Peale seda viskab ette UTG sisselogimise lehe. Sinna saab sisse logida UTG administraatori poolt meilile saadetud kasutajatunnustega.
