<p>* Dünaamiline hankesüsteem (DHS) on riigihangete registris avatud paindlik hankesüsteem, millega selle kehtivusajal kvalifitseerimise tingimustele vastavad pakkujad võivad jooksvalt endale sobival ajal liituda. DHS-iga liitumiseks tuleb pakkujal esitada avatud süsteemis taotlus, mille järgselt teeb hankija tingimustele vastamise korral DHS-iga liitumise otsuse. Hankelepingu sõlmimiseks dünaamilise hankesüsteemi alusel teeb hankija sellega liitunud kõigile taotlejatele ettepaneku esitada pakkumus. Kui dünaamiline hankesüsteem on jaotatud kategooriateks, teeb hankija pakkumuse esitamise ettepaneku taotlejatele, kes liitusid dünaamilise hankesüsteemi vastava kategooriaga.</p> <p>ENG: * The dynamic purchasing system (DPS) is a flexible procurement system opened in the state procurement register, which tenderers who meet the qualification conditions during its validity can join on an ongoing basis. In order to join the DPS, the candidate must submit an application in the open system, followed by a decision of the procurer on joining the system if the submitted conditions are met. This means that any economic operator /candidate can apply for inclusion in the system. Such applications may be submitted at any time. After joining the system, the joined tenderer will automatically receive notifications about procurements related to the system. In order to award a public contract under the dynamic purchasing system, the contracting authority or entity invites all candidates included in the system to submit a tender. Where the dynamic purchasing system has been divided into categories, the authority or entity invites all candidates who have been included in the relevant category of the system to submit a tender.</p>
